

How To Save Money On Your Auto Insurance In West Springfield

“ First of all, forget everything you’ve seen on television! You’ll end up paying more than you should. Because it’s not as simple as it looks.

There are a lot of factors that go into finding the lowest rate for your auto insurance... group discounts, the underwriting insurance carrier, the number of cars in the family, your homeowners insurance, driving records, and most important, your *coverage selections*. Beware of *low rate-quotes for inadequate coverage!*

So, how do you save money on your auto insurance?
You call me, *Kristina Lavigne*, Personal Insurance Specialist at the Insurance Center of New England because *that’s what I do!* ”
