

How To Save Money On Your Auto Insurance In Springfield

“It doesn’t happen by calling an 800 number and talking to a stranger! You’ll end up paying more than you should, or getting far less coverage than you need.

There are many factors that go into finding the lowest rate for your auto insurance... group discounts, the underwriting insurance carrier, the number of cars in the family, your homeowners insurance, driving records, and most important, your *coverage selections*.

Beware of low rate quotes for inadequate coverage!

So, how do you save money on your auto insurance?

You call me, *Alaine Brazier*, Personal Insurance Specialist at the Insurance Center of New England... because *that’s what I do!*”
